

Move approved scope into a signed engagement and billable milestones.

Prepared for: [CLIENT BUSINESS] | Prepared by: [PROVIDER]

THE NARROW OUTCOME

Every invoice traces to signed terms and accepted work.

An approved brief becomes a proposal, external signature receipt, owned milestone ledger, and invoice draft tied to acceptance.

PROPOSED WORKFLOW

01	Capture the scope brief Reviewable scope brief	Freelancer confirms capacity and commercial fit
02	Render proposal and terms Draft proposal PDF and contract checklist	Owner and legal adviser as needed approve terms
03	Stage e-signature Signature package awaiting authorized provider	No document sends from this starter; Documenso AGPL excluded
04	Open the milestone ledger Milestone ledger with owners and due dates	Owner validates signature receipt and deposit terms
05	Queue milestone billing Invoice draft linked to accepted work	No live Stripe charge or customer message

COMMERCIALS

IMPLEMENTATION	MANAGED CARE
\$1,500 one time	\$249 / month
Configuration, branded proposal template, test pass, and team handoff.	Monitoring, small fixes, and one monthly workflow tune-up.

BOUNDARIES AND ACCEPTANCE

This starter does not activate live payments, send customer communications, or deploy into a production customer account. Final scope, data handling, integrations, and acceptance tests must be approved in writing before implementation.
